

La sal mountains

La Sal Mountains and slick rock benches. Beautiful scenery with unlimited recreational opportunities.

My family and I love to spend summer weekends in the mountains and winter weekends in the desert--of course without tourists.

This is an area I remember seeing on many occasions throughout my lifetime, usually at sunset after a long day on the mountain property with my family.

It is 107° today and in 35 minutes from Moab you can be in the mountains and cool.
